

27M SINGLE TOWER GIANT DROP

Name: Giant Drop

Location: ShaoXing, ZheJiang Province, China

DESCRIPTION OF GIANT DROP

As one of the most exciting and thrilling equipment in the amusement park, the giant drop is designed to imitate the launch process of the spacecraft. With the giant drop ride, a gondola(spacecraft) carrying passengers will be lifted to the top of the central structure, then released to free-fall down to the lowest point. When the 'spacecraft' is launched into the sky, the high-speed vertical lift brings passengers a great sense of weightlessness. Passengers feel like being thrown out of the earth and sent into space as if they are sitting in a "spaceship". The maximum acceleration can reach 3g at the moment of launch, which is definitely smaller than the space launch acceleration since it is designed mainly for ordinary people. When reaching its highest point, the 'spacecraft' drops rapidly in free fall and further gives passengers an unforgettable sensory experience.

This equipment is extremely suitable for teenagers and adults who love scientific experience and space exploration. The height of the tower can be customized. Overall, giant drop is generally known as the most cannot miss, high-tech amusement equipment.

TECHNICAL PARAMETERS OF GIANT DROP

Total height: 27m

Max rising height: 21m

Headquarters Address: No. 18 Zhancheng Avenue, Taozhu Street, Zhuji City, Zhejiang Province, China, 311801

Shanghai Branch Address: C302, No.1618 Yishan Road, Minhang District, Shanghai, China, 201103

Hotline: (86)189-5752-6666/(86)133-7000-3211
