

## Amusement Controlled Aircraft

*Name: Amusement Controlled Aircraft*

*Location: ZheJiang Province, China*

### DESCRIPTION OF AMUSEMENT CONTROLLED AIRCRAFT

The amusement-controlled aircraft is the latest large-scale amusement equipment designed by us according to the market needs and specific requirements of users. Compared with other similar products, the new plane has outstanding advantages: the appearance of the plane modelling is particularly beautiful with cartoon figures and also very similar to the high-performance stealth fighter J-20. The great streamline shape and the controllable lifting system lead passengers into the interesting part of the experience.

The amusement-controlled aircraft is a kind of amusement plane that rotates around the vertical axis. Passengers can control the rise and fall of the plane by themselves. At the same time, passengers consider the plane ahead as an "enemy plane" and shoot it down. With a certain stimulation, the equipment is suitable for all kinds of tourists, especially children and teenagers.
